Going to Extremes

Name: _____ Date: _____

What was the hottest temperature recorded on the planet? The coldest? Where did the most rain fall? You'll explore global climate extremes in this Planet Diary activity.

Directions

- Click the links in the Workspace table to view global climate extremes. Use this global climate extremes chart as a handy reference.
- Record the temperature and rainfall extremes in the table, including location.
- Make a double bar graph for high/low temperature. Put temperature on the vertical axis and continents on the horizontal axis.
- Make a second double bar graph displaying most/least rainfall.
