MyAccountingLab Overview

MyAccountingLab provides resources that help students learn accounting while also building their problem solving, decision making, critical thinking, analytical, and knowledge application skills.

Highlights of this fully integrated learning program include:

Accounting Cycle Tutorial Accessed by computer, smartphone, or tablet, provides students with brief explanations of each concept of the accounting cycle through engaging videos and/or animations.

Enhanced eText Features Keep students engaged in learning on their own time, while helping them achieve greater conceptual understanding of course material through author-created solutions videos, opportunities to Try It!, and live exhibits.

Reporting Dashboard allows you to view, analyze, and report learning outcomes clearly and easily. Available via the Gradebook and fully mobile-ready, the Reporting Dashboard presents student performance data at the class, section, and program levels in an accessible, visual manner.

Learning Catalytics generates classroom discussion, guides lecture, and promotes peer-to-peer learning with real-time analytics. Now, students can use any device to interact in the classroom.

Adaptive Study Plan assists students in monitoring their own progress by offering a customized study plan based on Homework, Quiz, and Test results. Includes regenerated exercises with unlimited practice and the opportunity to prove mastery through quizzes on recommended learning objectives.

Personalized Learning Aids, like Help Me Solve This, Demo Docs, and instant feedback are available for further practice and mastery when students need the help most!

Worked Solutions provide step-by-step explanations on how to solve select problems using the exact numbers and data that were presented in the problem. Instructors will have access to the Worked Out Solutions in preview and review mode.

New Question Types The pool of question types has been enhanced to include Open Response, Algorithmic, Final Answer, and General Ledger questions.
