MyCJLab Overview

MyCJLab fosters engagement both within and outside the classroom, helping students better prepare for class, quizzes, and exams—resulting in improved performance in the course. The powerful homework and test manager lets you create, import, and manage online homework assignments, quizzes, and tests that are automatically graded. The online gradebook automatically tracks your students' results on tests, homework, and practice exercises and gives you control over managing results and calculating grades.

Highlights of this fully integrated program include:

Class/Quiz Prep Assignments and Pre-Built Chapter Quizzes Assess what your students know before they come to class with Class Prep assignments. Students can prepare for an upcoming quiz with Quiz Prep assignments that test their knowledge of the text and classroom experience. Now you can cover each of the objectives featured in your textbook using the Pre-Built Chapter Quizzes.

CJ Search Designed for quick and easy access in and out of the class-room, our media search tool, CJ Search, organizes current Criminal Justice related videos, news articles and other media from the Internet.

Multimedia Library and Point/CounterPoint Videos To help you build assignments, or add an extra engaging element to your lectures, each MyCJLab course comes with a Multimedia Library. Resources include videos such as Myths & Issues, flashcards, simulations, chapter PowerPoints, and summary.

Writing Space Better writers make great learners—who perform better in their courses. To help you develop and assess concept mastery and critical thinking through writing, we created the Writing Space.

Learning Catalytics™ Generate class discussion, guide your lecture, and promote peer-to-peer learning with real-time analytics. MyLab & Mastering with eText now provides Learning Catalytics—an interactive student response tool that uses students' smart-phones, tablets, or laptops to engage them in more sophisticated tasks and thinking.

Reporting Dashboard View, analyze, and report learning outcomes clearly and easily, and get the information you need to keep your students on track throughout the course. Available via the Gradebook and fully mobile-ready, the Reporting Dashboard presents student performance data in an accessible, visual manner.
