Grades K–5

Explore *miVisión Lectura* Asynchronous Program Activation Course Syllabus

Course Description

Let's explore *miVisión Lectura* and its interactive program components. We'll dig into the program goals, instructional design, and print and digital resources. That way, you'll know the big picture as well as all the little pieces. Through interactive experiences, you will practice using program resources as well as planning tools, preparing you to use *miVisión Lectura* in any setting on day one.
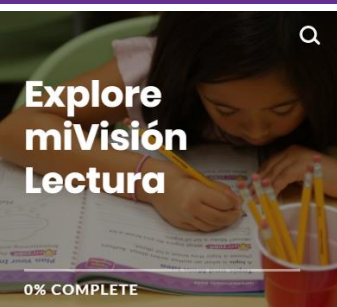

Learning Goals

| What Will I Learn?	What Will I Be Able to Do?
Program Outcomes and Design	• Apply the instructional model to maximize instructional time • Establish literacy routines in my classroom so my students can focus on their learning
Print and Digital Components	• Navigate program components, strategically using resources to support student learning • Help students access and use these resources to support their own learning
Planning Tools	• Make informed instructional decisions to personalize learning for my students
