Welcome to Savvas Realize!

In this tutorial, you’ll learn how to log in and set up your new user account. It only takes a few steps to get up and running!
Before You Begin

Before you can sign in, you must be a registered user on the platform.

If you need some help registering for Savvas Realize, check out the EasyBridge Basic: Teacher Self-Registration Guide or the Getting Started with Teacher Self-Registration tutorial on MySavvasTraining.com.
New User Set-Up

Once you’re a registered user, you are ready to begin. Go to SavvasRealize.com and click Sign In. Enter your username and password and click Sign In.
The first time you sign in, you'll need to do a few things before you can start working with your digital programs.

Scroll down to the first step and select the grades you teach.

Next, select the programs you teach. Make sure to only select the programs you are registered for and plan to use in your classroom.
Now enter your name. Keep in mind that this is the name your students will see so don’t use your username or a nickname.

In the next step, choose a profile icon. Don’t worry if you change your mind later; you can change this setting at any time.
Scroll down to the last step to choose a background image for your home page. Click Preview to see how it will look. You can also change this setting later.

To complete your account set-up, check the box that states you agree with the license agreement.
Check the second box to ensure that you receive important emails about Realize. This setting is optional and can be changed later.

To review or change any of your selections, use the top menu bar to go directly to the step you want to review.

Once you've confirmed your selections, click Let's go! to begin using your Savvas Realize account. Your Savvas Realize home page will appear.
Thanks for Watching

Thanks for watching, and be sure to check out MySavvasTraining.com for more tutorials and resources.
