

Digital Path

Labs

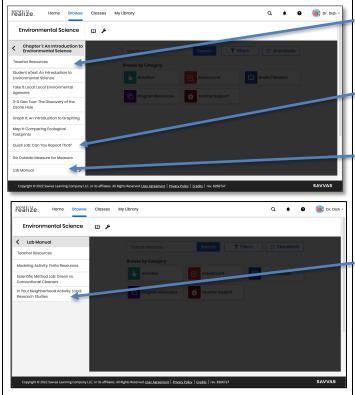

Click the back arrow to return to the full table of contents.

In the **Table of Contents**, click on a chapter within a unit.

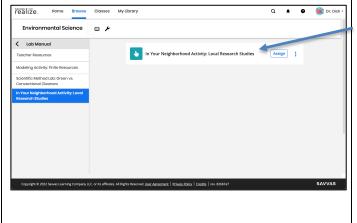

Choose the **Teacher Resources** to find teacher support and guidance for the lab. Use it to collect and prep materials, plan logistics, anticipate key ideas and grade student work.

In each chapter you will find labs that appear in the student edition, such as the **Quick Lab**.

Also, you will see the **Lab Manual**. The Lab Manual holds the other inquiry labs for the chapter. Click **Lab Manual** to find the additional labs.

Choose one of the labs from the Lab Manual.

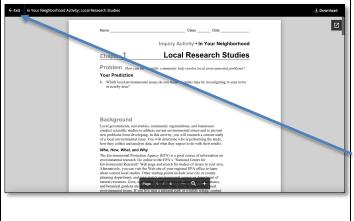

Click directly on the lab that appears in the middle of the screen to open the document.

If you like a lab but need to change it for one of your classes, you have the ability to edit the document.

Click on the **download** button that you find in the upper right-hand corner of the screen.

The lab will download as a Microsoft® Word document.

The lab that you downloaded is the student document for the lab. To edit what students see in this document, open the downloaded file; make your edits; and save it on your computer, on Google Drive™, or on Microsoft OneDrive®.

The edited version can be uploaded and assigned to your students.

To upload the new version, return to the previous menu by clicking exit.
