This is another place to watch the Introductory Tour of Savvas Realize.</p> <p>The magnifying glass icon allows you to search by keyword within your programs.</p> <p>Click the tabs at the top to navigate to the following:</p> <ul style="list-style-type: none"> • Browse (to view all program resources) • Classes (to add a class or students or to see assignments) • My Library (to view your playlists and uploads) <p>To access your <i>Experience Chemistry</i> program select it from the My Programs list on the right-hand side of the screen.</p>

This is the program **Table of Contents**. Each **Storyline** (units) and its corresponding **Investigations** (chapters) are listed here.

You can access eTexts for both the Student Experience Notebook and Teacher Guide from this page by clicking **eText book icon**.

Choose an Investigation to explore in more detail.

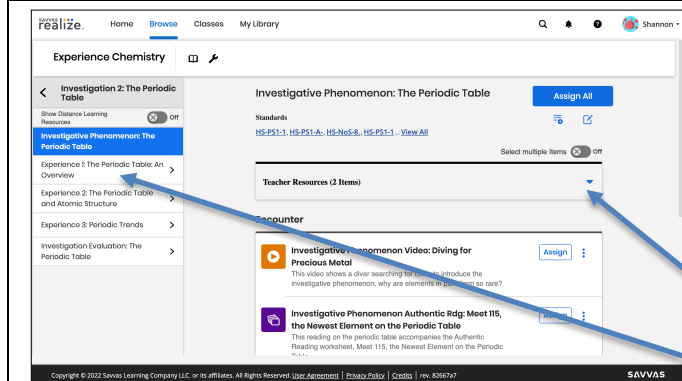

Each Investigation contains a **Table of Contents** like this one. Links to the Investigative Phenomenon launch and reflection activities are found at the beginning, followed by the individual **Experiences** (lessons).

Click the **Investigative Phenomenon** folder to see what can be found there and take a moment to investigate the different **Experiences**.

A variety of **Investigation-level assessments** are found in the bottom folder as well.

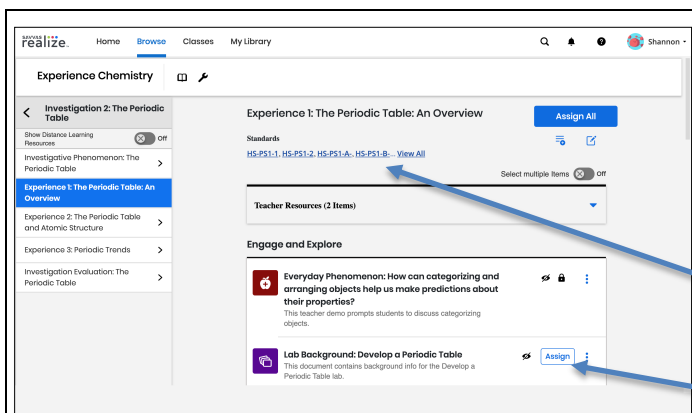

Click to open the Investigative Phenomenon.

Each investigation begins by introducing the Investigative Phenomenon with these activities. After completing the Experiences, return here to complete the **Reflect on the Phenomenon** activity before beginning the next Investigation.

The **teacher resources** will show the answer keys and connect directly to the Teacher Guide for these selections.

Choose one of the Experiences to explore further.

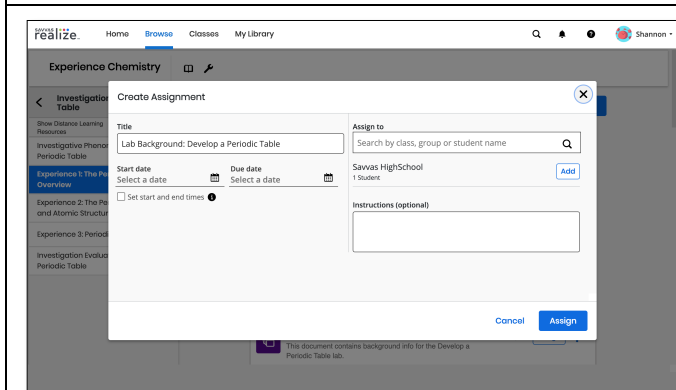

All the digital activities for each lesson can be found here. You'll see a number of eText links to the Student Edition, noted by the book icon. In addition, interactive options are listed here as well. The Lab Background is one of those options in this image.

Click **Standards** to view the Next Generation Science Standards* aligned with these activities.

Click **Assign** to assign the problem to a class, student, or group of students.

*Next Generation Science Standards is a registered trademark of Achieve. Neither Achieve nor the lead states and partners that developed the Next Generation Science Standards were involved in the production of this product, and do not endorse it.

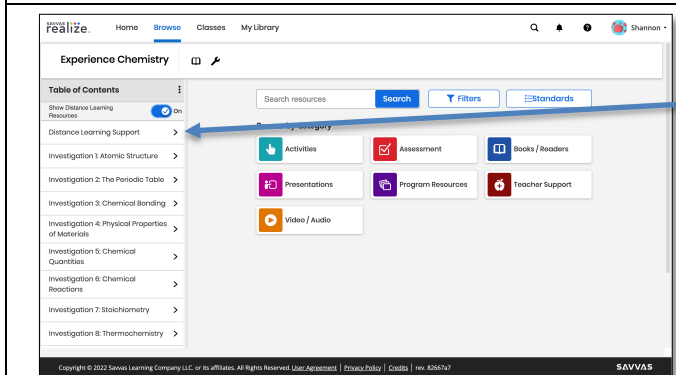

This window helps you customize the assignment by adding a due date and instructions and specifying the students who will complete the activity.

Do not assign an activity at this time. Close this box for now.

Reflect: How will you use the assignment customization options to differentiate instruction?

Return to the Program Table of Contents.

To learn more about teaching with *Experience Chemistry*, click the **Distance Learning Support** tab at the top.

Here, you'll find helpful videos, documents, planning resources, and links to additional resources for distance learning.
