

Challenge 1

Career Connections

Directions

1. Navigate to each topic. Explore information on and write down the career that is associated with each topic. Each topic has both a Quest Kickoff and a Career Connections section. Note the page numbers of each below, and bookmark the pages on your Savvas Realize™ Teacher eText. One example is Toy Engineer: Grade 2, Topic 1 on pages 2 and 35.
2. Brainstorm two additional ways that you can incorporate information into your classroom learning environment from each topic’s career. Record your ideas below. One example is to read “Pinocchio” as a read-aloud during your ELA block to incorporate the Toy Engineer career.
3. Implement these ideas from the upcoming topic into your classroom learning environment.
