

Challenge 6

Peer Activity

Directions

1. Complete one of the following suggested peer activities:
 - Observe a grade-level peer teaching Elevate Science during a science time block. Record what you noticed the teacher doing, what you noticed the students doing, and ideas that you would like to incorporate into your lessons.
 - Ask a grade-level peer to observe you teaching Elevate Science during a science time block. Ask them to record which elements were most effective. Using your peer’s notes, reflect on changes you might make to enhance the effectiveness of your teaching.
 - Meet with a peer who is incorporating digital resources successfully in his or her classroom. Discuss how your peer is using the resources to enhance his or her instruction. Record ideas to enhance your effectiveness when incorporating digital resources.
