Grades K-5

Digital Resource Guide

myWorld Interactive offers students opportunities at every turn to be interactive, social, and to use thoughtful technology – all while learning the Social Studies content that they need. This program makes learning accessible for all students by bringing them the engaging content in the way they will learn best. This program is designed to support your classrooms in print, digital, or any combination in between. Take time to explore our digital features and resources on our digital platform, Savvas Realize.

Feature	Description
eText	The digital eText contains embedded activities, videos, audio and more and can be accessed offline and online for use in any instructional setting!
Videos	Program videos can be used in synchronous instruction with teachers pausing the video to collect feedback. These videos can also be digitally assigned for asynchronous instruction.
Discussion Board	The discussion board provides you and your students a way to interact in a safe space on the Realize Platform. Teachers can create prompts, and digitally assign them so that students stay connected and engaged with peers.
pdf editor	Have you ever wished your students could draw on, highlight, annotate, and submit PDF assignments without having to download or print a thing? Savvas Realize is your answer!
Playlist	Create your own playlist using our resources to organize your instruction or assign your playlist to students for learning at home!

realize reader

Feature	Description
SS Toggle	Distance Learning Toggle, a new feature in Savvas Realize™, our award-winning learning management system, enables teachers with the click of a button to seamlessly shift between classroom and remote-learning curriculum, with content that is essential and optimized for distance learning.
Leveled Readers, Thinking Like a Citizen Readers, and Content Readers	These readers are available digitally and can be used in a synchronous setting or in an asynchronous setting by assigning to your students!
Sing about it and Rap about it	Introduce vocabulary and key concepts to engage your students in the classroom or in a virtual class! These songs and videos can also be assigned so that students watch independently and arrive to class ready to learn more!
Vocab Games	Students can play review games to review for assessments at home!
Activity Guide	The Activity Guide can be utilized for at homework with parents to supplement instruction.
360 Explorations	Unable to leave your home or classroom? 360 Explorations allow students to virtually explore different settings with both a tour guide and individual explorations!
