

EXPLORE

Learn the basics.
Plan and use Quests and Labs.

Goals

- Navigate the Teacher Edition with ease
- Locate the *Elevate Science* digital resources
- Use planning resources as you prepare to teach
- Conduct Quest and Lab activities
- Assess your students

DIVE IN

Plan and teach a topic.
Navigate your resources with ease.

Goals

- Incorporate the digital resources into your daily routine
- Use rubrics for assessment
- Help students learn to support their scientific claims with evidence
- Reflect on your teaching using the Teacher Self Check tool

ENHANCE

Be a power user.
Teach using all parts of the program.
Support your colleagues.

Goals

- Use *Elevate Science* supporting resources, such as Phenomena Readers and Literacy Connections, to embed science content into your literacy instruction
- Assign and customize Pearson Realize™ content
- Incorporate OpenEd resources
- Model lessons for colleagues
