This plant can be identified by making detailed observations about its characteristics and comparing those observations to descriptions in a field guide.

KICKOFF

Motivate the problem that students will solve during the Quest by playing or assigning these videos from Pearson Realize.

Access it in the Topic Launch folder of each Topic.

CHECKLIST

Help students become independent learners! Print or assign this checklist for students to use to track their own progress and manage their time.

Access it in the Topic Launch folder of each Topic.

RUBRIC

Students complete this self-assessment to evaluate their own work. The rubric uses a 5-point scale on a variety of dimensions.

Access it in the Topic Launch folder of each Topic.
