

Digital Path

Directions: Use the Digital Path to practice navigating the Savvas Realize™ platform. Take notes about each page/feature as necessary.

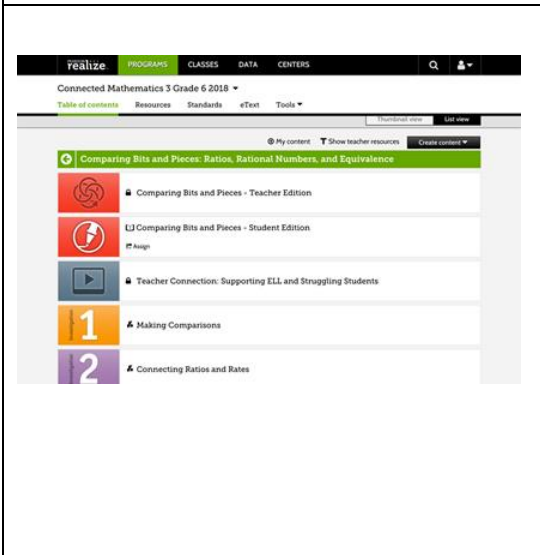

Please note: your program screens may look different from the images in these training materials due to our rebrand to Savvas Learning Company.

<p>Explore your account.</p> 	<p>This is the Savvas Realize home page. The person icon in the upper-right corner will give you access to the following:</p> <ul style="list-style-type: none"> • Settings (including account information and available programs) • Help (with the Savvas Realize platform, including instructions on how to set up a class and add students) • Announcements (including new features or updates to the program) • Option to sign out of the program <p>Click the circles or the tabs at the top to navigate to the following:</p> <ul style="list-style-type: none"> • Programs (to view all program resources) • Classes (to add a class or students or to see assignments) • Data (to view online assessment results) <p>Choose the green Connected Mathematics 3 program on the left.</p> <p>Notes:</p>

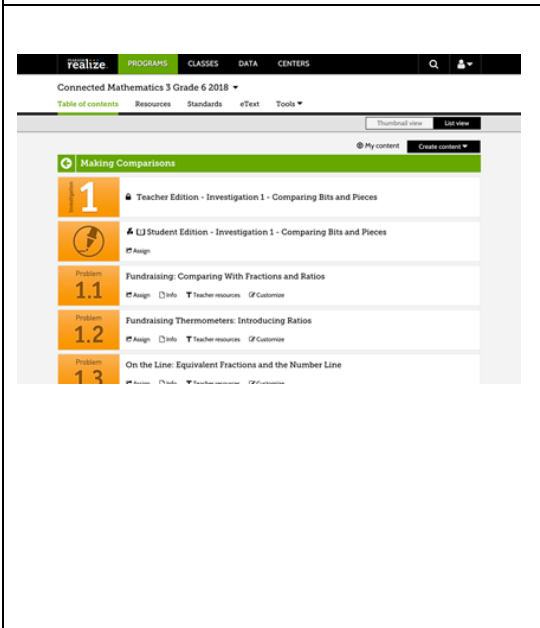

This is the program Table of Contents. Each Unit is listed with a red icon. You can also access your Realize Reader eText from this page by clicking **eText**. Choose a Unit to explore in more detail.

Notes:

Each Unit contains a similar Table of Contents to the one shown on the left. Links to the Unit in the Teacher and Student Edition are at the top, followed by a teacher support video, the Investigations that make up the Unit, Unit-level assessments, and shortcuts to student resources and activities. (You can also find these by clicking **Tools** near the top of the page.) Choose one of the Investigations to explore further.

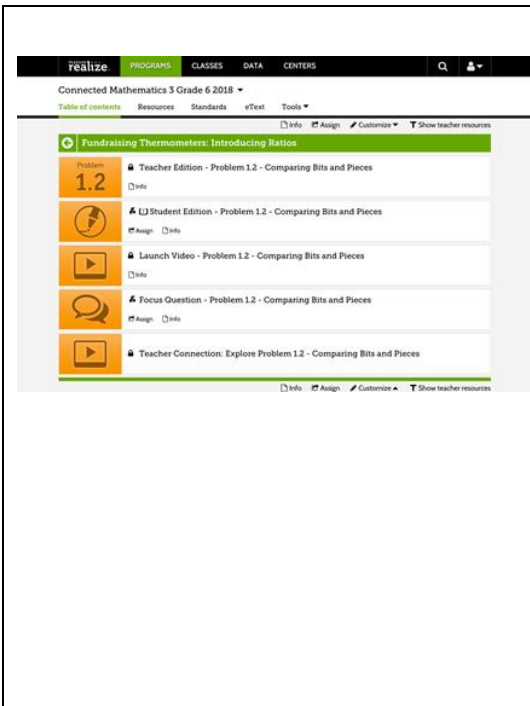

Notes:

You can find all the activities and links for each Investigation here. You will see links to the Teacher and Student Edition, followed by each problem, ACE exercises, and Mathematical Reflections.

Click **Teacher resources** under any problem to see the lesson plan and materials that you will need. Click **Info** to view the Common Core State Standards aligned with the problem. Click **Assign** to assign the problem to a class, student, or group of students. Click any **problem** to continue.

Notes:

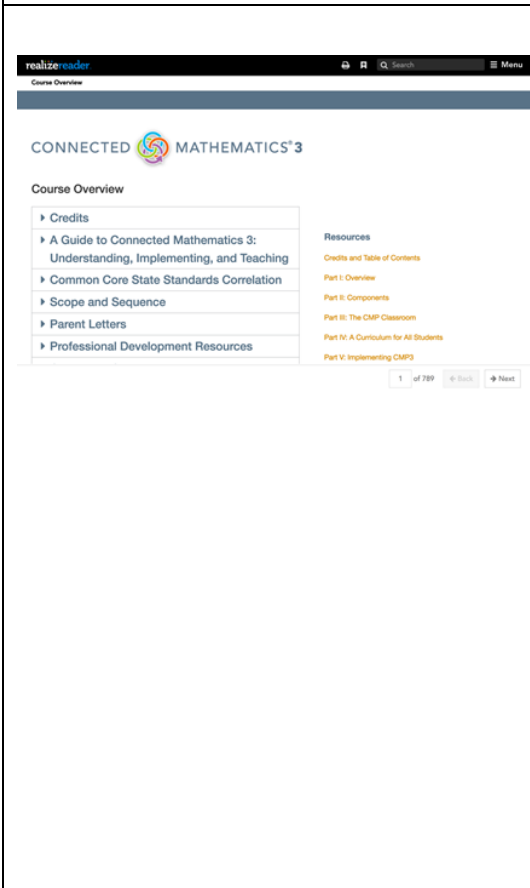

Next, you will see some of the resources that you will use to teach a lesson. You will find the Focus Question and Launch videos or Teacher Connection videos (if applicable) here.

Click **Show Teacher Resources**. Links to downloadable PDF lesson materials will appear on the right side of the screen.

Select **eText** from the menu bar under the program title. This will take you to the Teacher and Student Edition eTexts. Choose the one you want to view, and click the **Open in new window** button. Since the eText opens in a new window, you can toggle between your Savvas Realize account and Realizer Reader eText.

Notes:

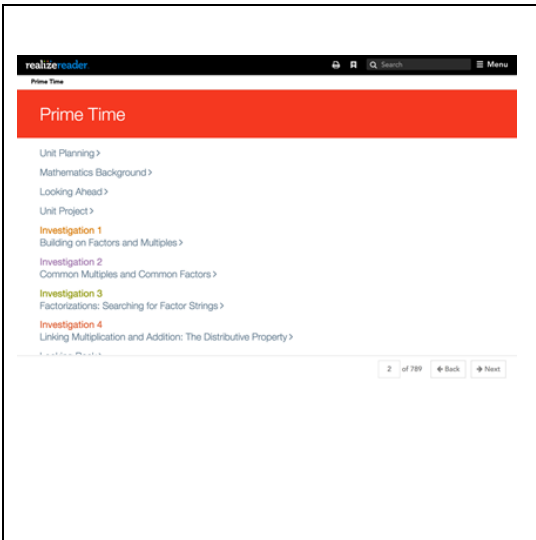

This is the Course Overview page of the Realizer Reader eText. (The eText links within a Unit, Investigation, or Problem will take you directly to those places.)

The Resources on the right are the same links that you will find on the left menu item **A Guide to Connected Mathematics 3: Understanding, Implementing, and Teaching**. This is your implementation guide. There are many helpful resources here about how to instruct, assess, differentiate, and set up and manage your classroom. Take some time to explore the resources here.

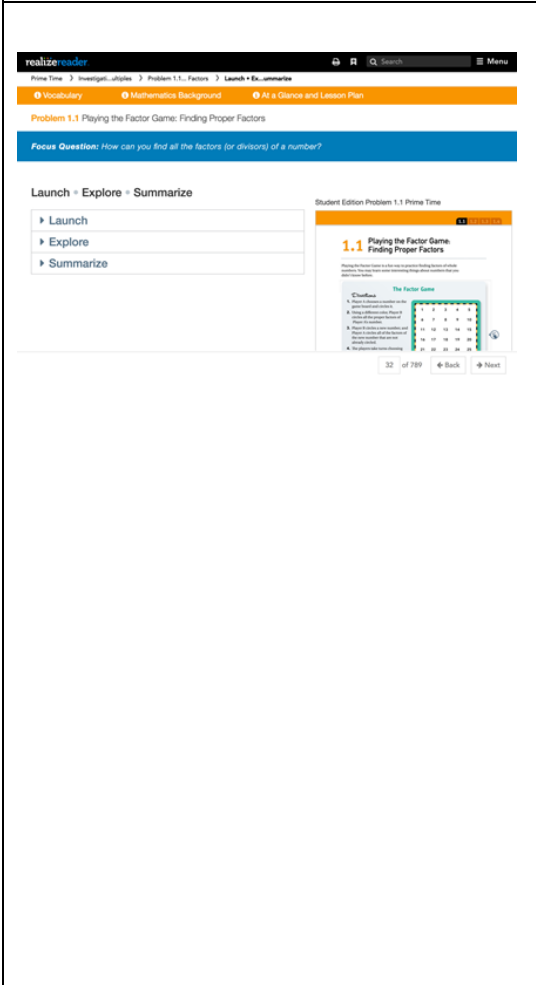

When you are finished, click **Next** at the bottom of the page. You can navigate using the arrows, typing in page numbers, or using the direct links embedded in your Savvas Realize Unit, Investigation, and Problem pages in the other window.

Notes:

This is the Table of Contents for a single Unit. Each of the menu items links to the corresponding page in the eText. Choose an **Investigation** and then **Problem to Explore**, and then click **Launch • Explore • Summarize**.

Notes:

Click each of the lesson phases next to the arrows to see detailed plans and guidance for a particular phase.

Use the **Vocabulary**, **Mathematics Background**, and **At a Glance and Lesson Plan** icons in the orange bar as additional references. The Focus Question is provided with a blue background as a reminder while teaching the lesson.

Click the image of the Student Edition on the right. This will link to PDF files of the corresponding pages that you can download and print. To navigate back to the Investigation or Unit, use the navigation path under the Realize Reader logo at the top left.

Use the search bar at the top right to search for words or phrases in the eText. Click **Menu** at the top right for additional navigation, bookmarking, and annotation options.

Notes:
