

Lexile[®] Measures

| Title | Lexile [®] |
|---------|---------------------|
| Grade 1 | 490-520 |
| Grade 2 | 480-520 |
| Grade 3 | 650-670 |
| Grade 4 | 720-730 |
| Grade 5 | 700-740 |
| Grade 6 | 780-810 |

A Lexile measure is a number indicating the reading demand of the text in terms of the semantic difficulty (vocabulary) and syntactic complexity (sentence length.)

MetaMetrics[®] is a privately held educational research organization that develops scientific measures of achievement, best known for developing The Lexile[®] Framework and The Quantile[®] Framework, unified approaches for measurement of reading and math.
