

## Introduction

This guide explains how to access your student account, enroll in a class, and change your password on Savvas SuccessNet. Student accounts are created by either an EasyBridge administrator or teacher. After receiving your username and password, go to SavvasSuccessNet.com and log in.

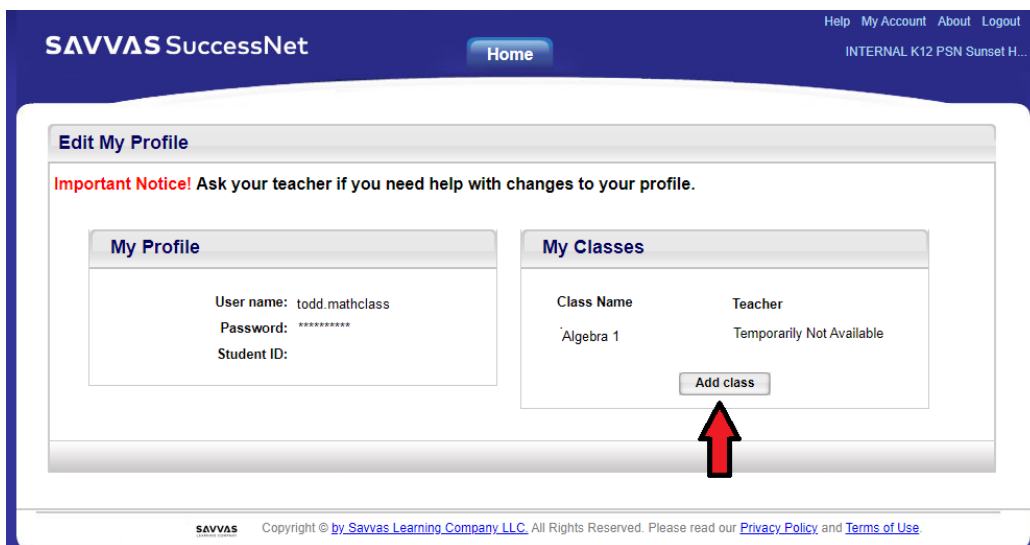

## Class Enrollment

Your teacher provides you with a **class access code** that allows you to enroll in a specific class. Follow these steps to enroll in the class:

1. Click **My Account**.

2. Click **Add class**.

3. Enter the class access code provided by your teacher and click **Next**.

### Enter Class Access code

To enroll in a new class, enter the class access code that your teacher has given you

\* = Required field

Class access code:

Cancel Next

4. Click **Finish** to complete the process.

You now have access to your class and can explore the digital curriculum and student book that is associated with the class!

## Change Your Password

Ask your teacher if you need help with changing your password.

**Note:** If you use programs on other Savvas K12 learning platforms, use your new password to sign into your account on those systems as well.
