

Accessing Skills Review and Practice Exercises

SAVVAS
realize[®]

Learn how to find and use Skills Review and Practice activities inside **enVision+ A/G/A** via the Savvas Realize dashboard. Use these short, targeted activities to provide instant remediation and close student skill gaps.

Steps to Success:

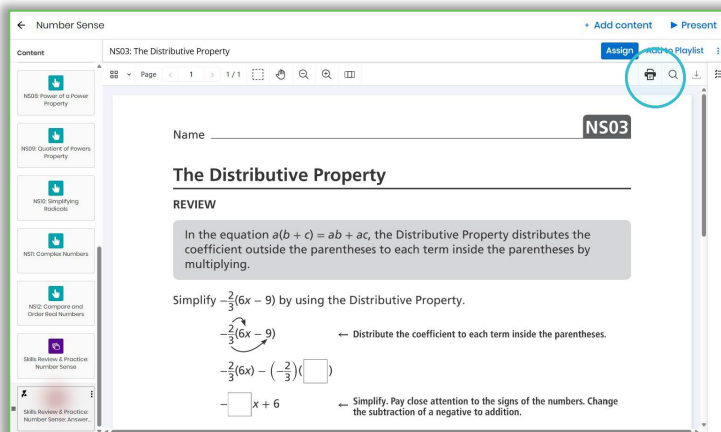

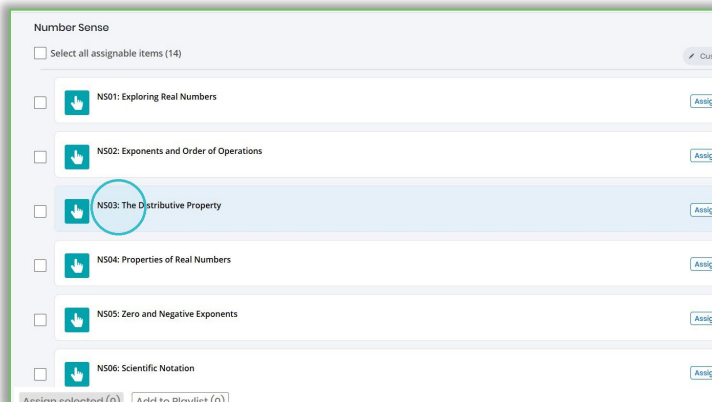

1. Navigate to your **enVision+ A/G/A** program in Savvas Realize.
2. Expand "Skills Review & Practice" and select a domain of interest, like "Number Sense".

3. Each domain contains a series of mini lessons on each key prerequisite skill. Click on one to preview the activity.

4. You can preview each activity. When you are ready, you can print, download, or assign the item.

Each worksheet is generally divided into a guided mini-lesson, and small amount of practice to reinforce the skill.

5. Scroll down to the bottom of the content to locate the "Skills Review & Practice: Number Sense: Answer Key" from the left sidebar.

6. When students need extra support after an assessment, use the recommended Skills Review Activities. You can access these recommendations in your printed Teacher's Edition and Assessment Sourcebook or click the links directly inside your digital Lesson Materials on Savvas Realize.
