

# Tutorial Guide: MindPoint Quiz Show

## Playing the Game

### MindPoint Quiz Show

This guide explains how students play **MindPoint Quiz Show**, the interactive assessment tool that comes with many Savvas products.

### Game Mode

To launch the MindPoint Quiz Show:

1. Double-click the MindPoint Quiz Show icon.
2. Select the Game Mode you would like to use:
  - Single Player
  - Multiplayer
  - Team Play

Single Player:

1. Choose a **Class** from the drop-down menu.
2. Select the **Player**.
3. Type in the player's password.
  - If you click **Edit**, you can modify a player's profile.
  - You can add a **New Player** if you have any additions to a class.
4. Choose the **Game Type** you would like to play:
  - Race the Clock
  - Challenge the Computer
    - Choose your **Skill Level** from the drop-down menu.

## Selecting a Question Set

To select a question set, simply choose one from the drop-down menu and click **Next**.

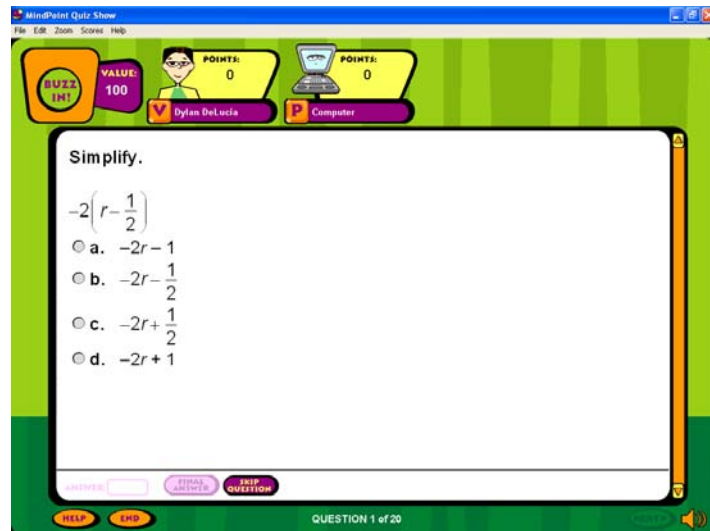

If you'd like to make any changes, just click **Back**.

To review the directions, click **How to Play**.

## Play the Game

To play:

1. Click **Start**.
2. Select your answer from the choices provided.
3. Click **Final Answer**.

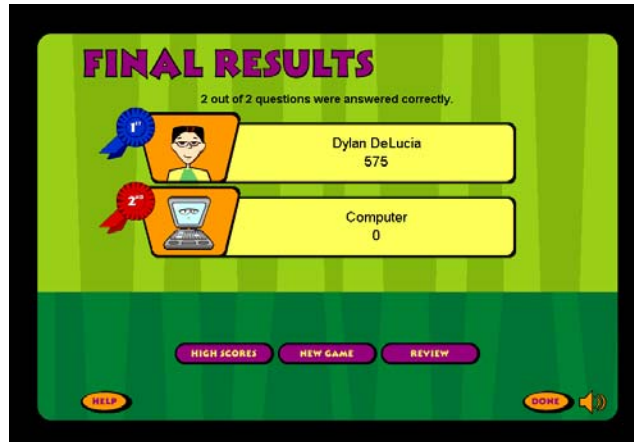

- If the answer you select is correct, play will continue.
  - If the answer you select is incorrect, the computer will show you the correct answer.
  - If you would like to skip a question, click **Skip Question** rather than **Final Answer**. You will return to this question at the end of the game.
4. Click **Next**.
  5. Once you have answered all of the questions, you will see a screen that says **Final Results**.

## Final Results

At the **Final Results** screen, you can:

- Review your answers by clicking **Review**.
- Print a report by clicking the print icon in the Review page.
- Play a new game by clicking **New Game**.
- Click **High Scores** to review your performance.
