# Realize Reader: Language Supports

Text to Speech (TTS)

The Text to Speech button enables the reader to select text on the page and hear it read aloud in English. To use Text to Speech, first select text in the Realize Reader. Then, from the pop-up toolbox, **click on Text to Speech.**

Translate Button

To translate the text to different languages**, select text** on the page, then from the pop-up toolbox **click on Translate**. The selected text will appear in translated form in the pop-up box, as shown below.
