

Accessing & Assigning Family Engagement Resources for enVision+ Mathematics

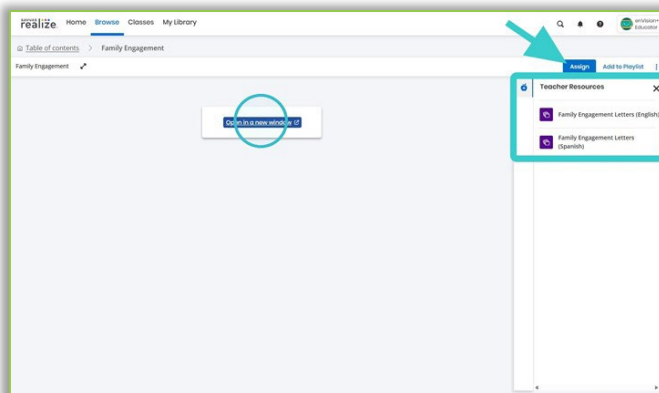

SAVVAS
realize[®]

Steps to Success:

1. Navigate to your **enVision+ Mathematics** program on Savvas Realize.
2. Scroll down and click on the **Family Engagement** tile under the *Program Resources* heading.

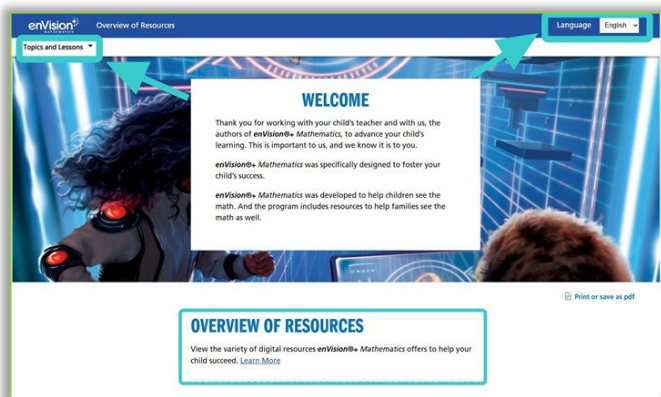

3. Click **Open in a new window** to launch the Family Engagement site.

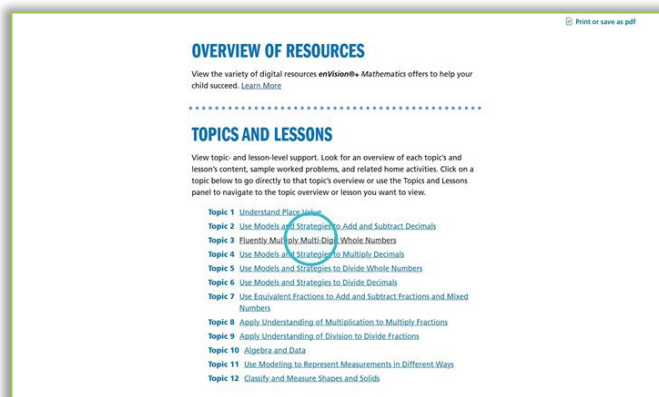

Notice you have access to the **Family Engagement Letters** from your expandable Teacher Resources panel. You can also choose to **Assign** the Family Engagement site to students here as well. Assigning Family Engagement at this level will provide students and families with the full Family Engagement site for their grade level, where they can navigate to any Topic and Lesson at any time.

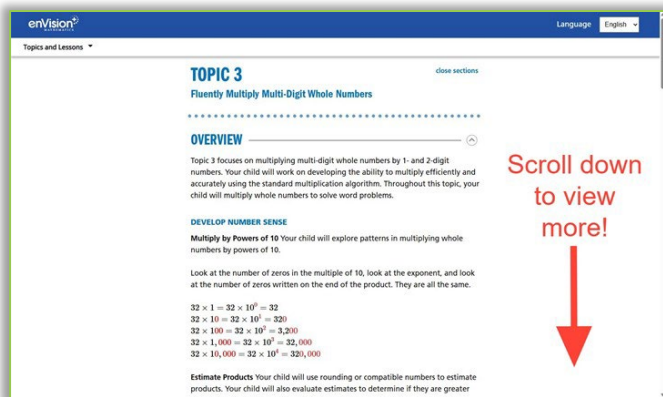

4. This opens the main Family Engagement site. Consider reading through the Overview of Resources offered. Notice you can access all **Topics and Lessons** here, as well as change the **Language** of the site.

5. Scroll down to see the full list of Topics for the grade level being viewed. Click on a **Topic** of your choosing.

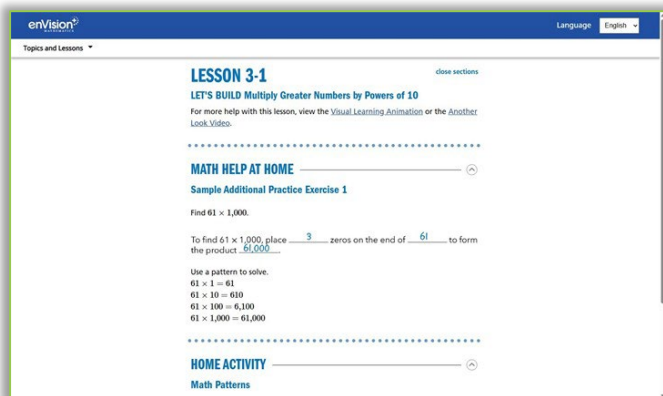

6. This is a Topic Overview page that gives families an overview of what students will be learning and doing during the course of the Topic. **Scroll down** to view all this page has to offer.

7. Scroll to the bottom to find the list of lessons within the topic. Click on a **Lesson** of your choice.

8. The Family Engagement lesson-support page provides lesson-specific support that can be accessed at any time.

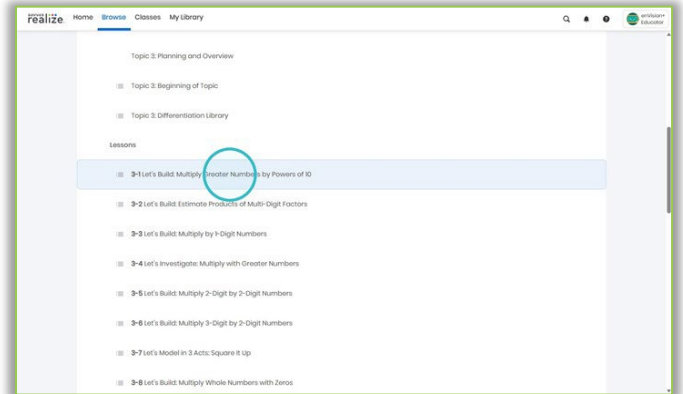

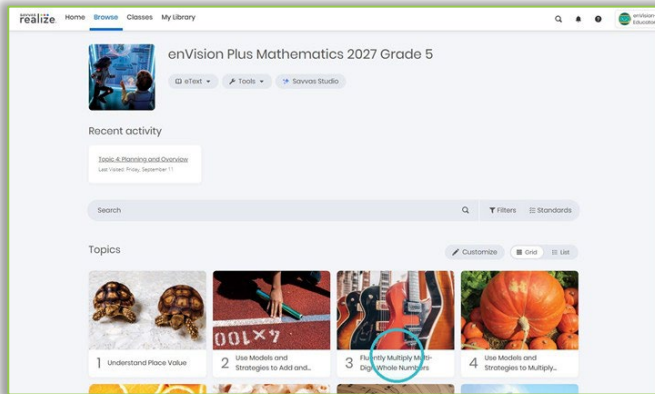

Lesson-Support includes:

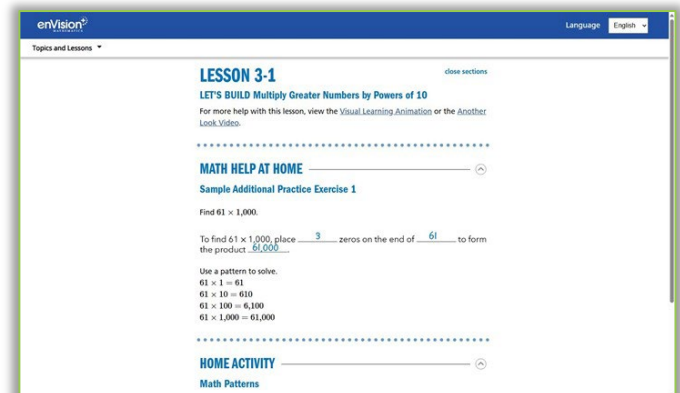

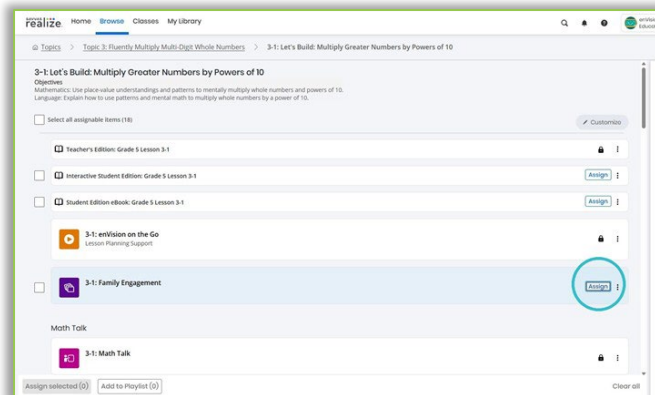

- link to the **Visual Learning Animation**
- link to the **Another Look Video**
- **Math Help At Home** – provides additional practice examples with visuals, when appropriate
- **Home Activity** – optional activity that can be completed at home, with minimal materials required

Follow these steps to Assign just the Family Engagement Lesson-Support:

9. Navigate to the lesson for which you want to provide the Family Engagement support by first clicking on a **Topic** of your choice.
10. Click on the **lesson** for which you want to provide Family Engagement Lesson-Support.

11. This is the lesson-landing page. Click on **Assign** next to Family Engagement within the lesson resources, and go through the steps of assigning it, just as you would any other student-facing resource.
12. Assigning Family Engagement at the lesson-level will provide students and families with the link to the specific lesson support, at point-of-use. No need for families to have to hunt for the desired lesson.

Thank you for viewing these Steps to Success! We hope you found this helpful. Be sure to check out [MySavvasTraining](#) for more tutorials and tips.
